

MOSAIC PREMIUM POOLS

EUROPOOL

FEATURES

01 Beneath the tile layer is the Europool pool structure, proven and trusted for years

02 Tiles have a hardness of 7–10 on the Mohs scale, making them resistant to scratching with a knife or tool steel

03 Our grout is PZH certified

04 Limited possibility of osmosis occurring

05 Double insulation as standard

06 Pool-grade gelcoat at the base layer, colour-matched to the grout

A woman with her eyes closed and head tilted back is relaxing in a hot tub. The hot tub's interior is covered in mosaic tiles. She is wearing a leopard-print bikini top. The water is bubbling around her neck and shoulders.

Mosaic Premium Pools

Based on many years of experience, market analysis, and a commitment to proven materials and reliable suppliers, we decided to meet and exceed our customers' expectations.

We are proud to present our latest creation —
Mosaic Premium Pools.

We combined the unique designs of Ezarri tiles with our well-known pool models, so everyone can find a solution perfectly suited to their needs. We chose glass mosaic tiles, which, unlike ceramic tiles, offer greater durability and outstanding design.

www.europool.pl

A worker in a white protective suit and mask is using a spray gun to apply material to a pool shell in a large industrial facility. The worker is wearing a white hooded suit, a respirator mask, and blue gloves. They are holding a long, flexible hose connected to a spray gun. The background shows a large, open industrial space with a high ceiling and metal structures. The text 'MOSAIC PREMIUM POOLS' is overlaid on the left side of the image in a large, white, serif font.

MOSAIC PREMIUM POOLS

After extensive laboratory testing, we selected an adhesive and grout that meet our highest standards. Importantly, both are available in a wide range of colors, allowing our pools to achieve an even more unique and individual look.

Although the production technology differs from standard solutions, you can still choose equipment from our offer, fully personalizing the pool to your needs and creating your dream place of relaxation.

We approach each project individually, paying attention to every detail, so that the pool shell delights not only with durability but also with aesthetics. All tiles are laid by hand and, when necessary, carefully cut to size.

Thanks to our advisors, you can turn your dreams into reality. We are able to create a visualization by placing the pool directly into your garden, complete with surrounding architecture and greenery.

MOSAIC POOL LAYERS

1. Tiles:

- Glass mosaic tiles from the renowned Spanish manufacturer Ezarri, available in various colors

2. Grout:

- Epoxy grout matched to the tile color, characterized by smoothness, waterproof properties, long-lasting color, and high resistance

3. Adhesive:

- Epoxy adhesive in the same color as the grout, extremely durable and resistant to mechanical and chemical damage

4. First base gelcoat layer:

- Pool gelcoat in the grout color, resistant to osmosis, proven and used in standard pool shells

5. Second base gelcoat layer:

- To ensure the highest quality, we use two layers of pool gelcoat to maximize our product protection

6. BarrierCoat:

- A special protective spray layer providing additional protection against osmosis

MOSAIC POOL LAYERS

7. Vinyl ester layer:

- An additional sealing anti-osmosis layer, because for us one layer of protection is never enough!

8. Structural layer:

- An appropriate number of fiberglass mat layers impregnated with resin, depending on pool size

9. Fiberglass fabric core:

- Additional reinforcement in critical areas to prevent cracking of the pool shell

10. Second structural layer:

- Structure identical to the first structural layer

11. Steel reinforcement:

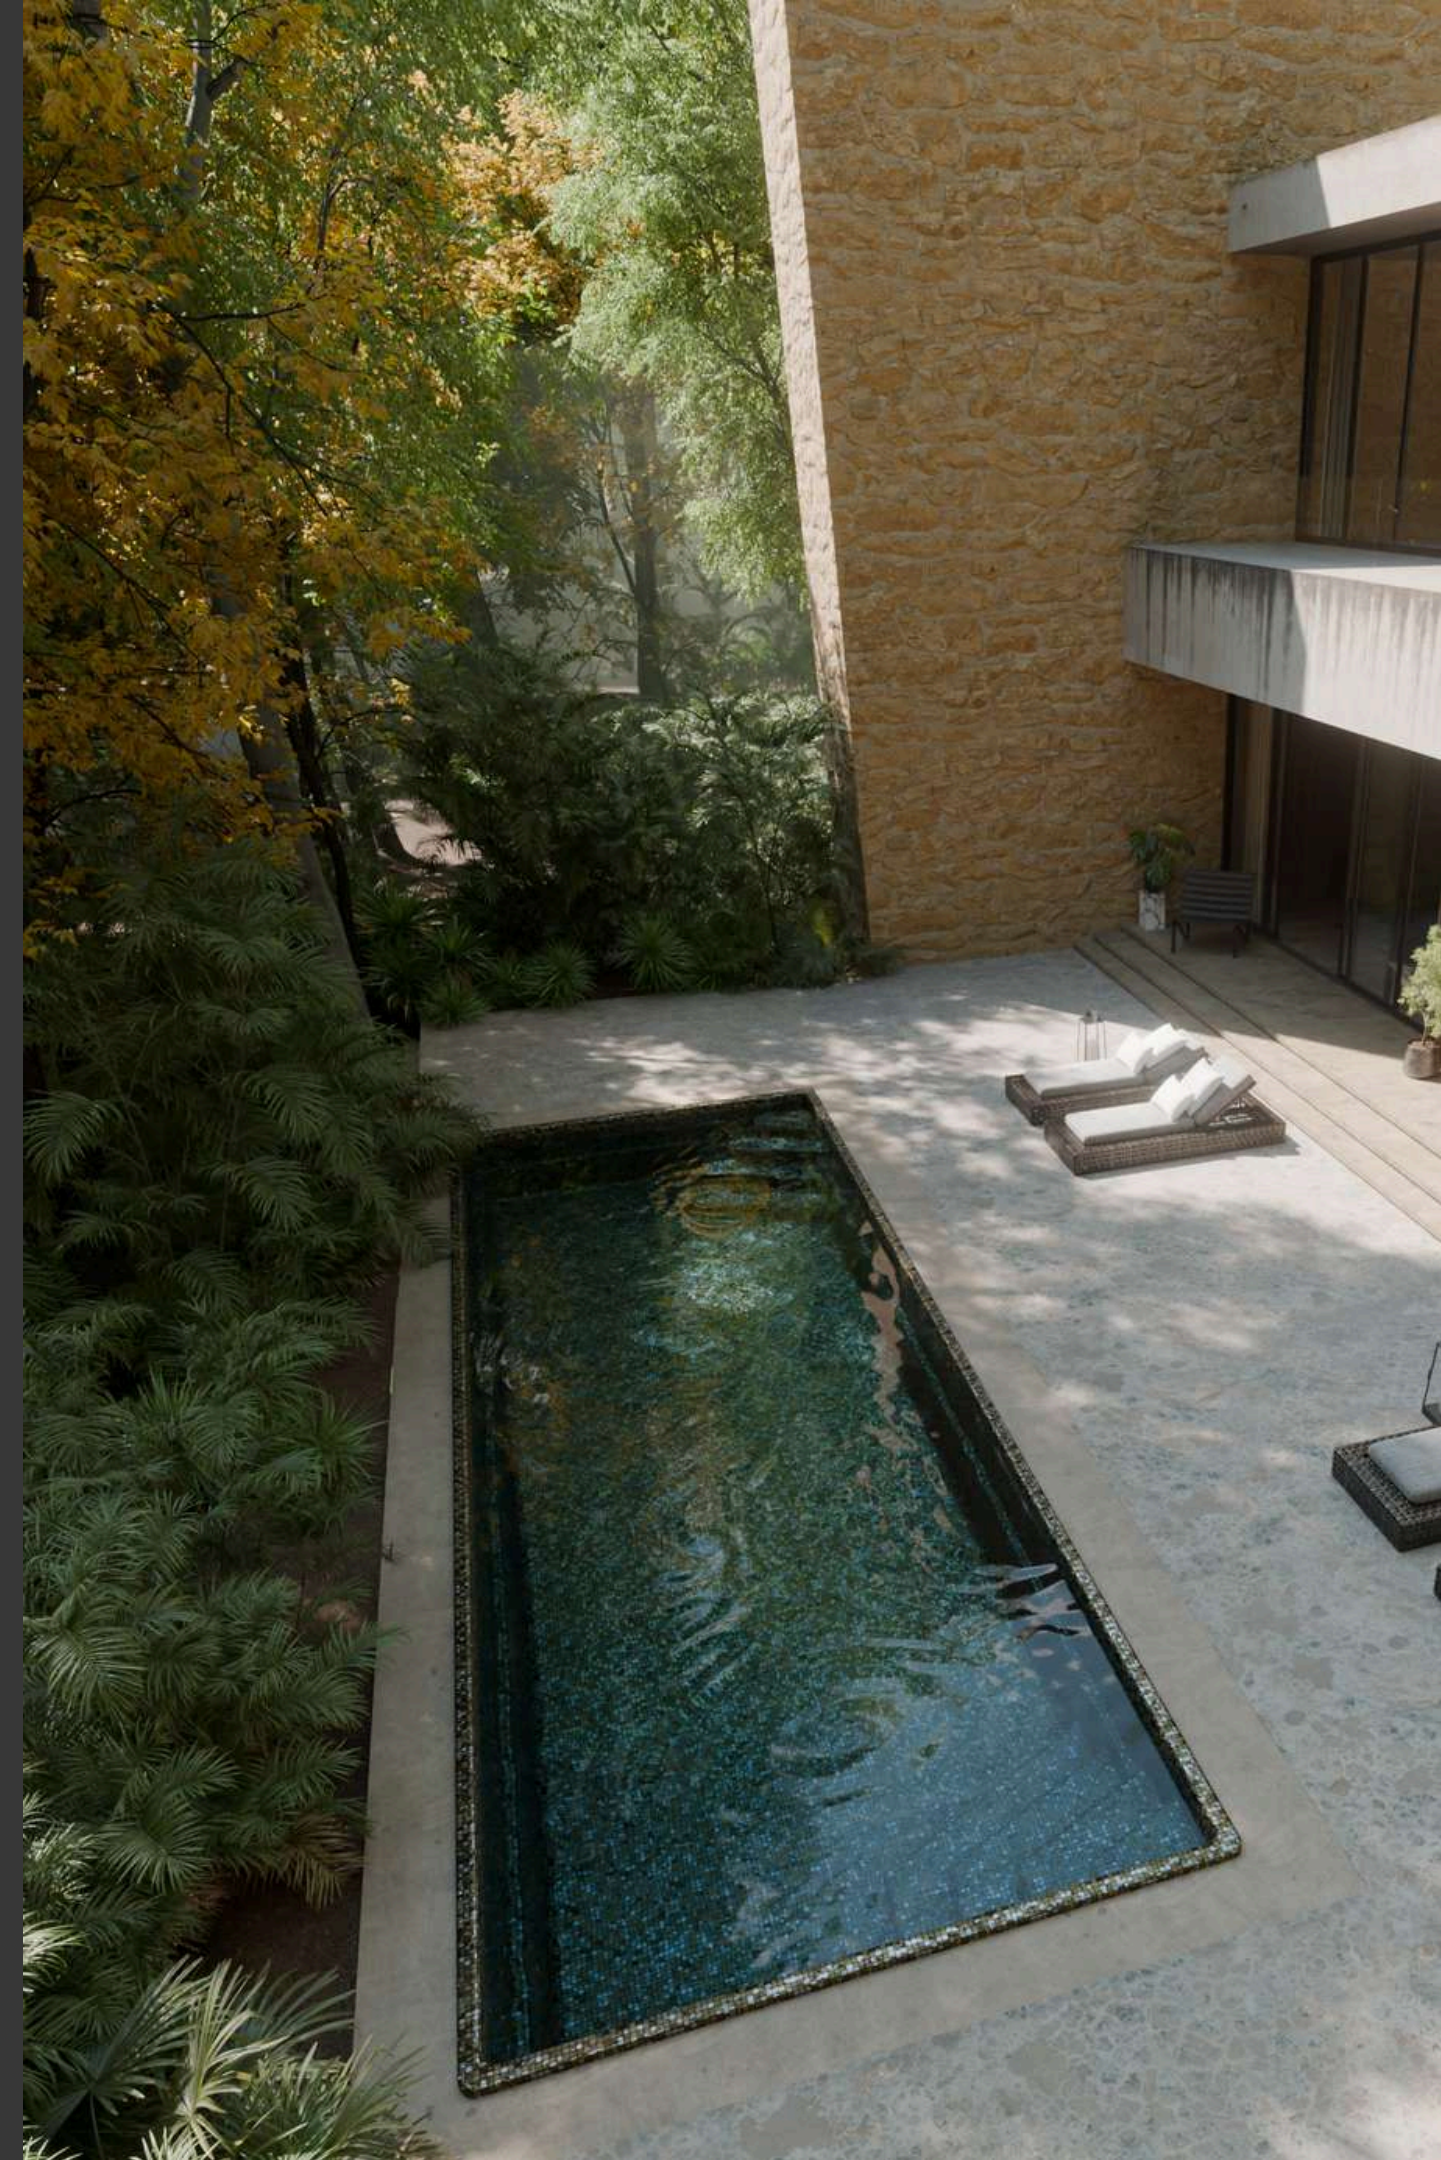

- Steel profiles applied under the frame and at embossed sections to stiffen the shell; Mosaic Premium Pools feature double transport handles

12. Topcoat:

- The exterior is finished with a topcoat layer that protects the shell from external factors

13. Polyurethane foam insulation:

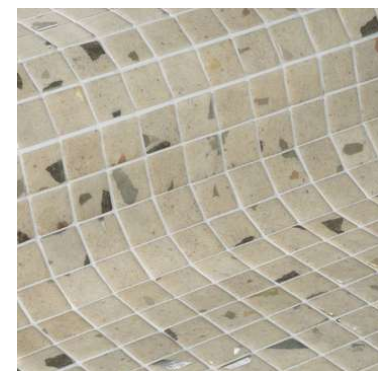

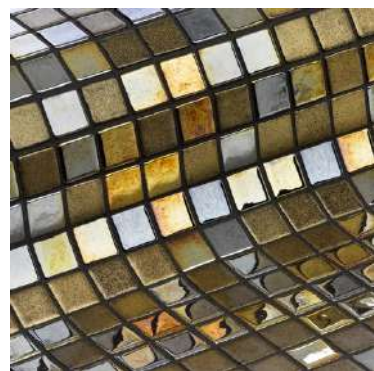

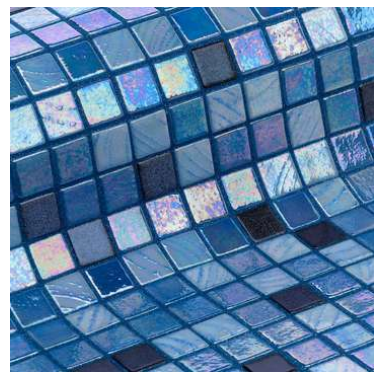

- In the Mosaic Premium Pools series, we use a double insulation layer for enhanced protection and thermal insulation
