POLISH GARDEN POOL MANUFACTURER

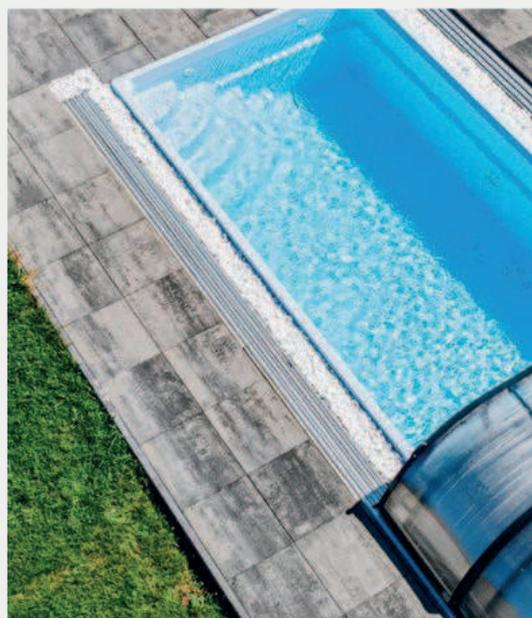

As the only company in Poland, we handle your project comprehensively: from visualization, through production, transport, installation, and service.

[ABOUT US](#)

Comprehensive service - what does that mean?

01	Design	We do not use ready-made designs – we create each swimming pool individually, so that it fits you and your garden.
02	Production	We have our own production lines for year-round pools. Only in this way are we able to provide the quality you deserve – personally taking care of the smallest details.
03	Transport	Transporting an 11-meter swimming pool is extreme transportation! Don't worry about it. Our experienced drivers will deliver the pool exactly to your garden.
04	Assembly	We operate without subcontractors. The installation of the swimming pool is carried out by our employees, because we want to influence your satisfaction with the implementation.
05	Service	Don't worry about pool maintenance – we can do all the maintenance work for you. Have questions about your pool? Our service technicians are here to help you!

VINYLESTER POOLS

If you're looking for a garden pool that will last for many years, while also being aesthetic and modern, a vinyl ester pool is the perfect choice for you. Wondering if this is the right solution? Allow us to present the advantages of vinyl ester pools.

READY-MADE MODELS

For whom is a vinylester pool suitable

01	Over 30 models to choose from	Select your pool – options range from 2-meter round mini pools to 11-meter swimming pools.
02	Durability you will enjoy for years	Over 15 years ago, the first Europool vinylester pool was installed – and it still looks as good as new today!
03	An energy-efficient and eco-friendly solution	We have ensured low utility bills for you – polyurethane foam insulation prevents heat loss in the pool.
04	Fifteen years of refined technology	This production method demands immense precision – we refine our processes daily to provide you with the highest quality pool.

JOSEF

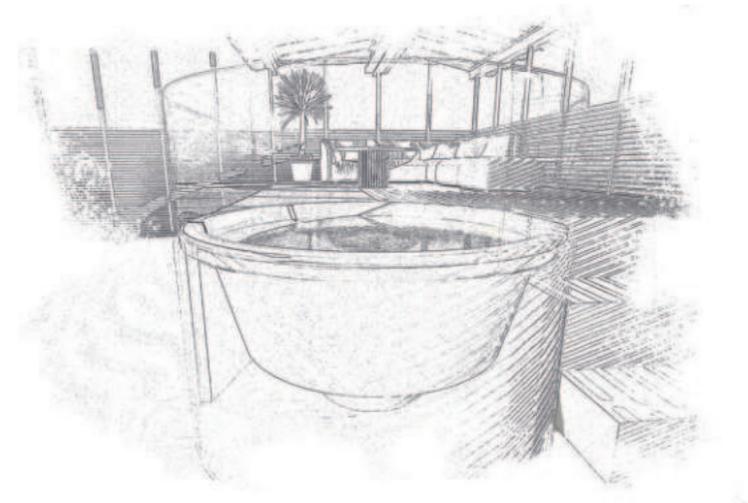

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
2,20 M X 2,20 M X 1,06 M	4 M ²	85 KG (110,5 KG)	1,8 M ³

Introducing the Josef inground pool—a compact solution ideal for smaller garden spaces. This versatile model combines the benefits of a paddling pool for a quick refresh and a jacuzzi, ensuring comfortable use with the option to add a massage jet system.

The Josef garden swimming pool is designed for those looking to maximize space efficiency without compromising on luxury and relaxation. Its compact dimensions make it perfect for smaller gardens, offering dual functionality that enhances its practicality. Users can quickly cool off on hot days or transform it into a jacuzzi, enjoying a soothing water massage right in their own garden.

MIKE

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
2,40 M X 2,00 M X 1,00 M	4 M ²	90 KG (117 KG)	2,3 M ³

Introducing the Mike model, our compact garden pool designed for refreshing dips on hot days and offering exceptional comfort and relaxation features.

The Mike year-round garden swimming pool provides a perfect outdoor relaxation solution, ideal for smaller garden spaces. Its oval shape and vinyl construction ensure versatility, fitting seamlessly into various garden layouts. This pool serves both as a traditional immersion pool for cooling off and as a spa tub with massage capabilities.

WICEK

DIMENSION:
2,90 M X 2,25 M X 0,89 M

WATER SURFACE:
6 M2

POOL WEIGHT (CVC):
80 KG (104 KG)

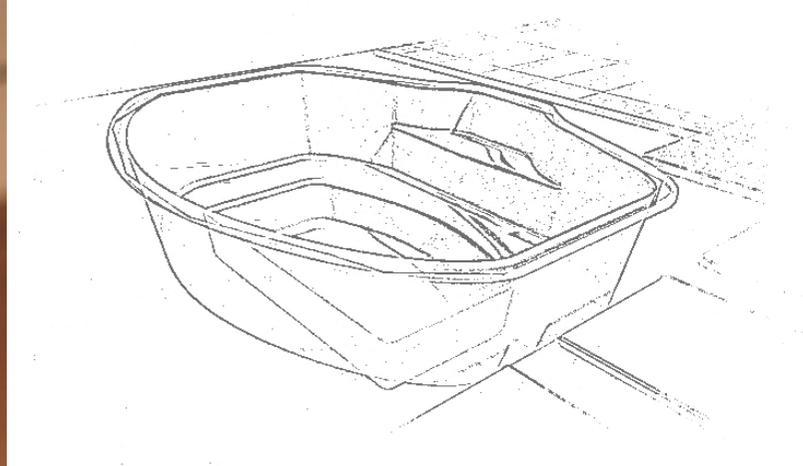

VOLUME:
3,2 M3

Ideal for small gardens, the Wicek garden swimming pool model provides a convenient option for cooling off on hot days.

The Wicek vinyl ester pool offers versatility, doubling as a spa in your garden with the option to install a massage jet system upon request. Its comfortable seating makes it perfect for family gatherings or relaxing moments with friends.

KINDERPOOL

DIMENSION:
5,00 X 3,00 X 0,50 M

WATER SURFACE:
14 M²

POOL WEIGHT (CVC):
220 KG (286 KG)

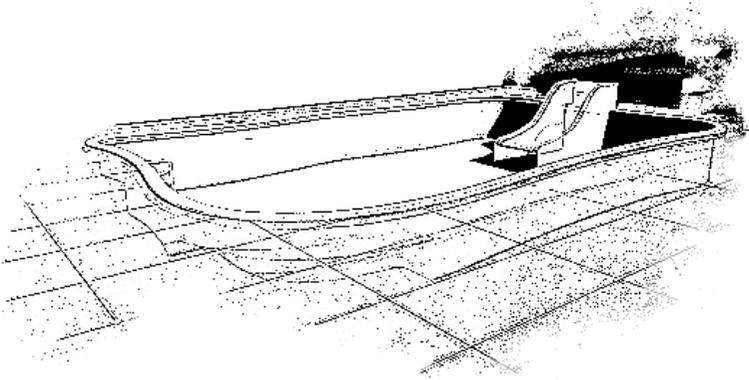

VOLUME:
6,5 M³

A Kinderpool is a vinyl ester pool designed for the youngest children. It is only 0.50 m deep, ensuring safe play. Such a children's pool with a slide is the perfect solution for summer!

The Kinderpool is a children's pool measuring 5.00 x 3.00 x 0.50 m, specially designed for the youngest ones. The pool is equipped with a corner seat, a long bench, and a slide that will surely bring a lot of fun during bath time. If you want to make the time spent in the paddling pool even more enjoyable, you can equip it with a fountain, waterfall, or water cannon.

VICTORIA

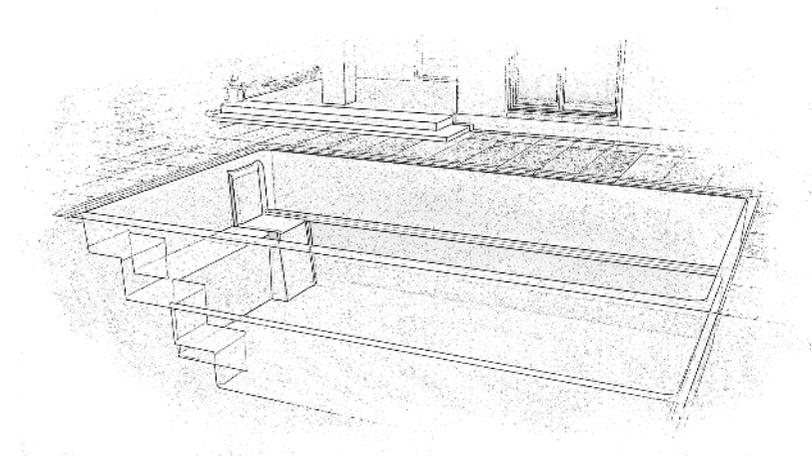

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
4,20 M X 2,70 M X 1,30 M	11,5 M2	340 KG (545 KG)	11 M3
4,70 M X 2,70 M X 1,30 M	13 M2	430 KG (690KG)	12,5 M3

The Victoria and Mini Victoria rectangular pools represent our smallest garden swimming pool models, tailored for families and outdoor relaxation.

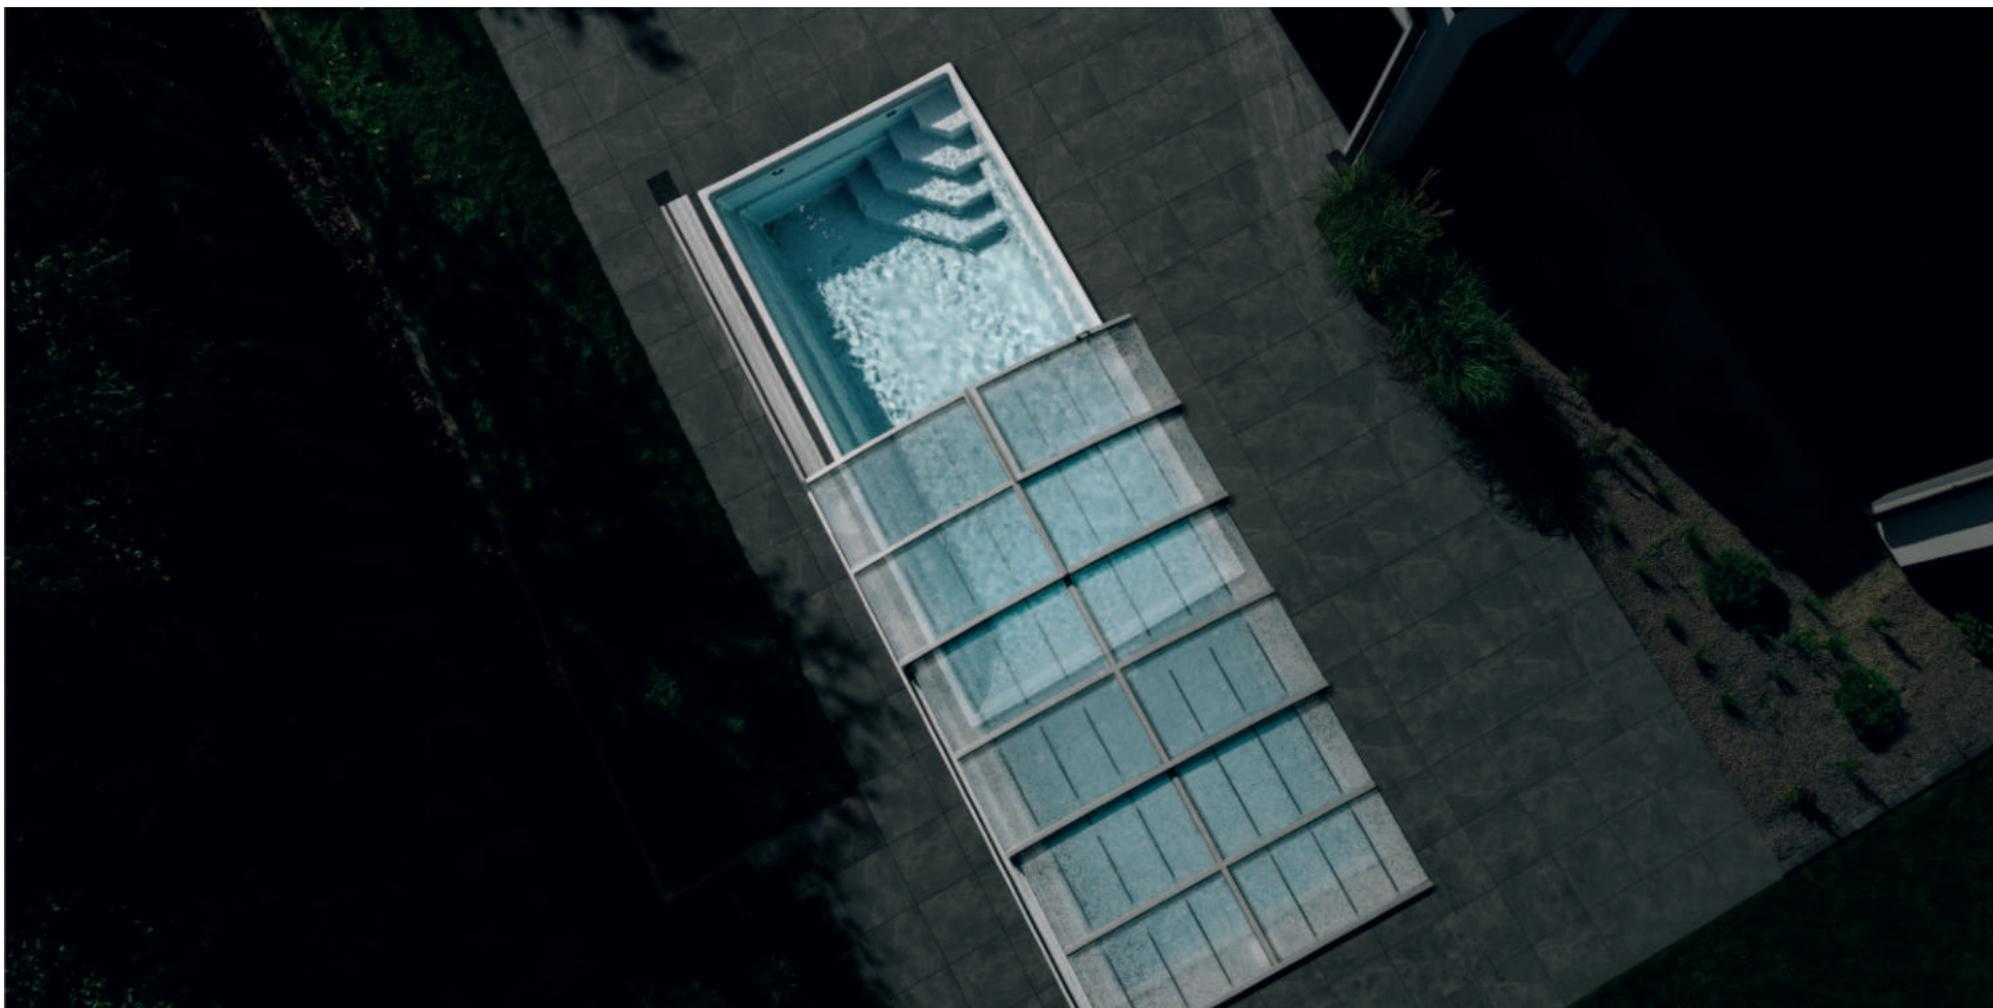

The Mini Victoria and Victoria in-ground pools are crafted with comfort and enjoyment as priorities. They feature comfortable corner steps and seating, providing ample space to relax with loved ones. These versatile garden swimming pools are designed for year-round use and can be enhanced with features like a water curtain or counter-current system, offering a delightful water experience for the entire family.

SABA

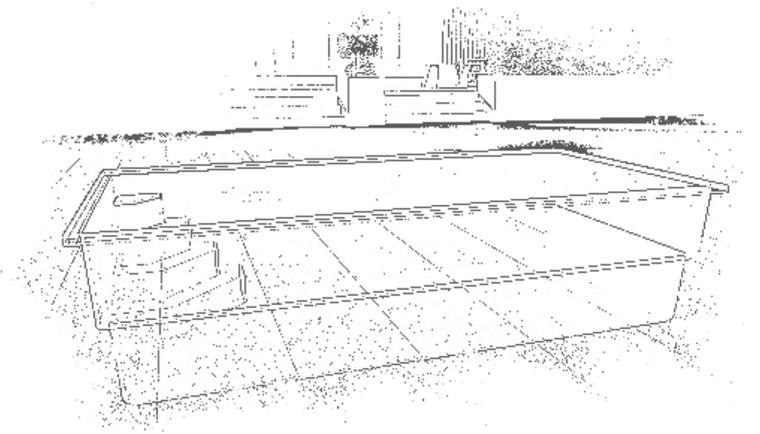

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
5,00 M X 3,00 M X 1,45/1,50 M	15 M2	470 KG (750 KG)	17,5 M3
6,00 M X 3,00 M X 1,45/1,50 M	18 M2	570 KG (910 KG)	21 M3

The Saba 500 and Saba 600 stand as our top-selling garden pool models, celebrated for their ergonomic dimensions and user-friendly corner steps.

The Saba 500 and Saba 600 in-ground swimming pools prioritize convenience, offering maximum swimming space with small yet comfortable corner steps. These versatile, all-season pool models are perfect for maximizing the benefits of such a pool setup.

PAPEETE

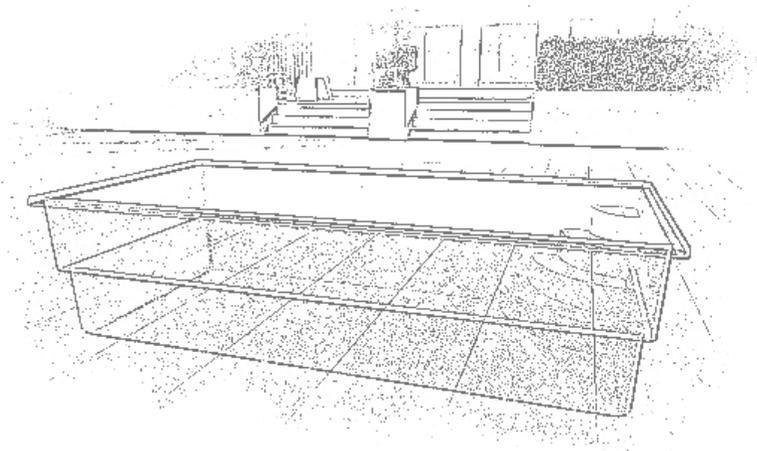

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
6,00 M X 3,00 M X 1,50 M	18 M2	570 KG (910 KG)	22 M3
7,00 M X 3,50 M X 1,50 M	24,5 M2	830 KG (1330 KG)	31,5 M3

The Papeete 600 and Papeete 700 garden swimming pools, renowned for their rounded corner steps, are available in two sizes, combining exceptional attractiveness and functionality for your outdoor space.

The Papeete 600 and Papeete 700 models are perfect for those who value ample space for unrestricted swimming. Featuring small, rounded corner steps, these vinyl ester garden pools offer easy access. They have long been cherished as our top-selling models.

GRENADA

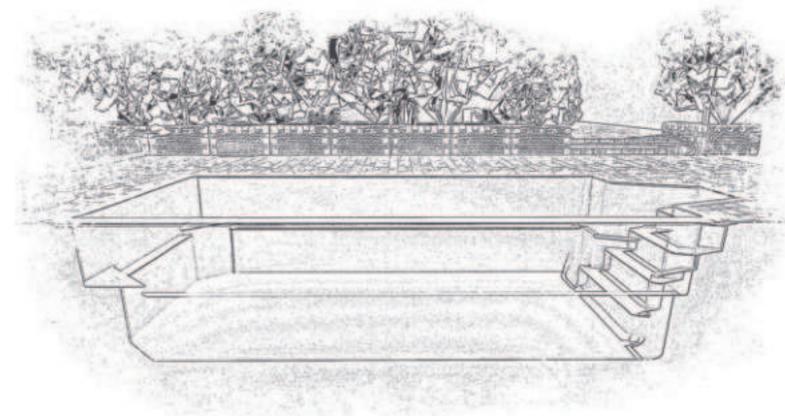

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
6,00 M X 3,00 M X 1,52 M	17 M ²	580 KG (930 KG)	18,5 M ³
7,00 M X 3,00 M X 1,52 M	19,5 M ²	640 KG (1020 KG)	27 M ³

A unique model in our range, the Grenada 600 and Grenada 700. Design and comfort are definitely two words that describe this model of garden pool.

Two seats that allow us to relax comfortably, steps that extend beyond the swimming area are definitely advantages of these models of in-ground swimming pools. The steps that extend beyond the pool's perimeter won't take away from our swimming space and allow us to spend time with our loved ones. In addition, the robust construction will ensure long-lasting durability.

BALI

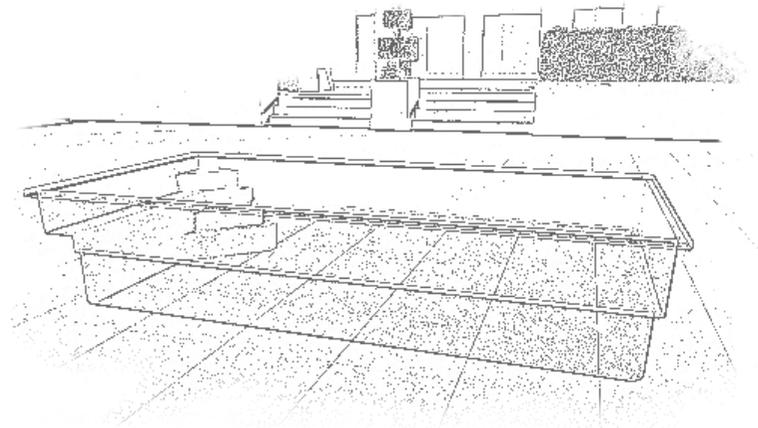

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
6,50 M X 3,70 M X 1,50 M	24 M ²	650 KG (1100 KG)	31 M ³
7,50 M X 3,70 M X 1,50 M	27,75 M ²	900 KG (1390 KG)	41,60 M ³

Introducing our flagship bestsellers, the Bali 650 and Bali 750 models. These are among our latest offerings, developed based on customer feedback. The contemporary design of these garden pools makes them a perfect fit for any outdoor space.

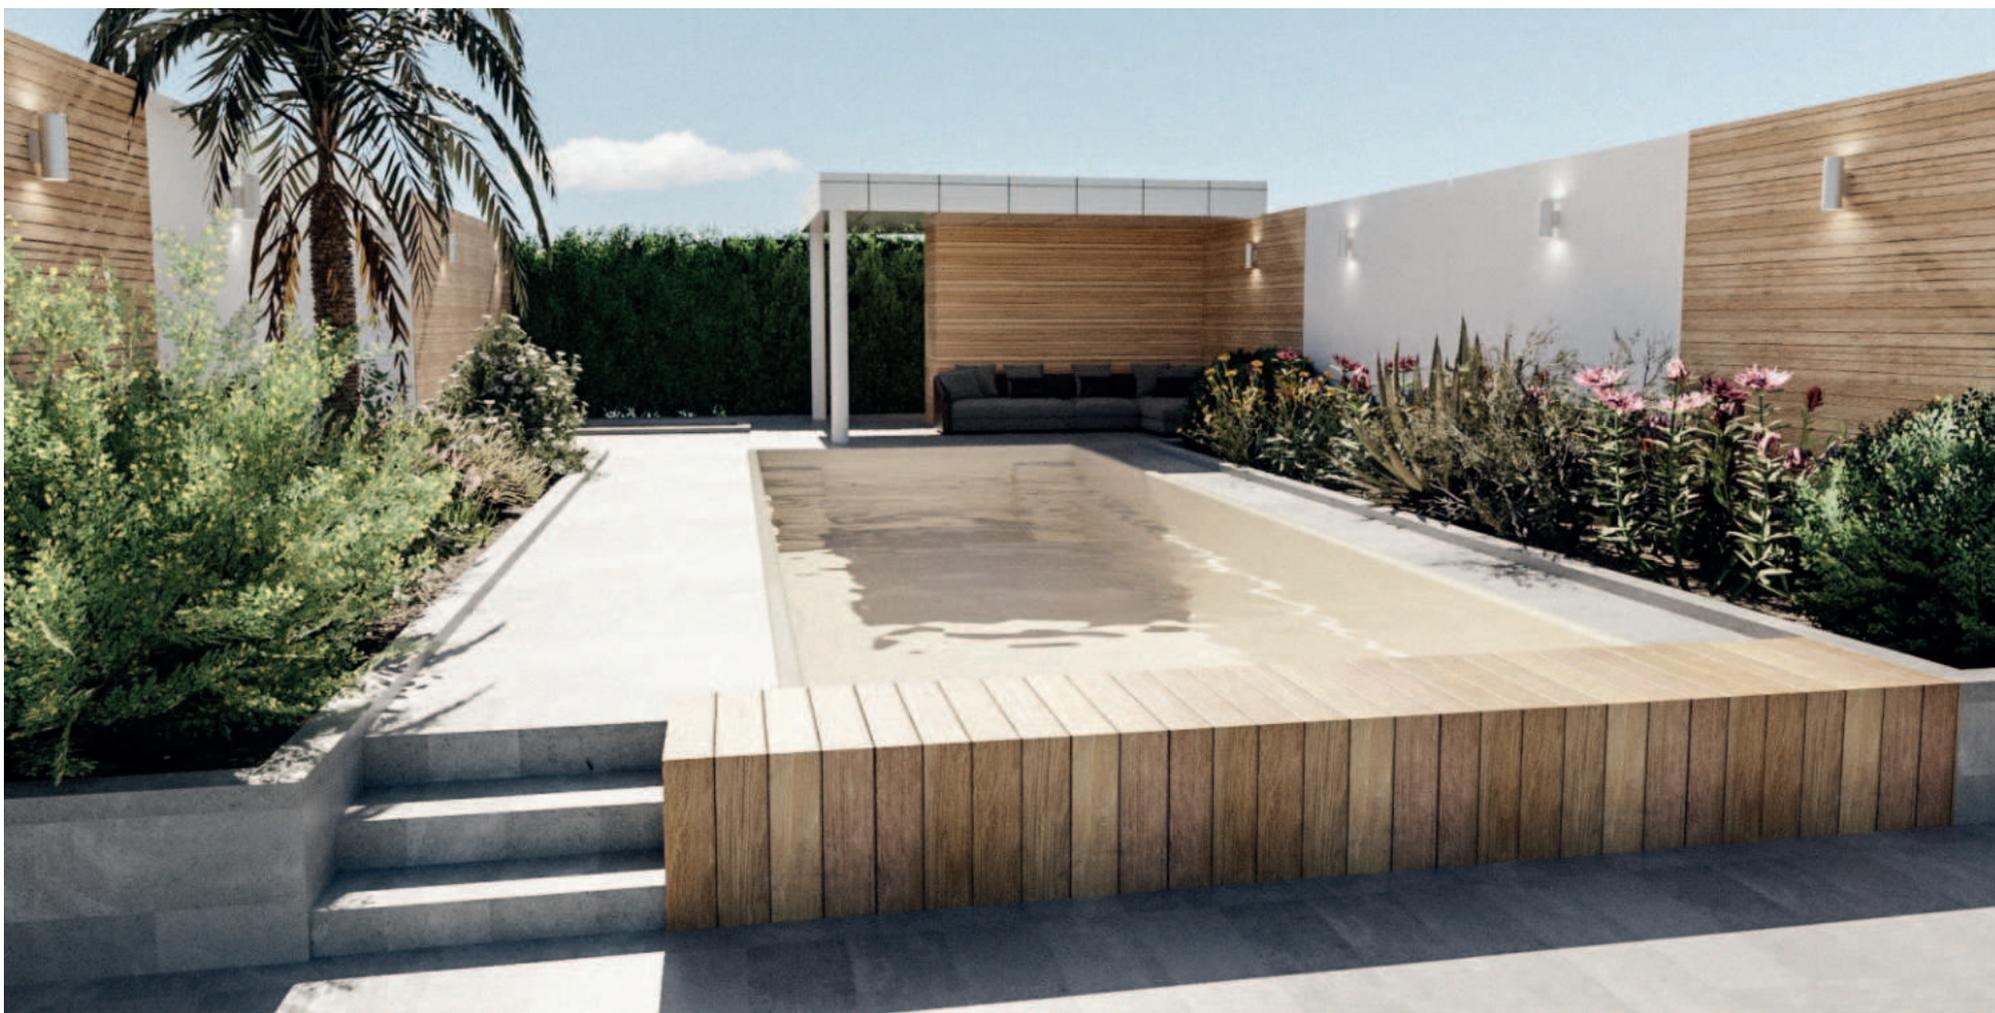

The Bali 650 and Bali 750 models feature sloping, straight steps accompanied by an additional bench, providing an ideal spot for relaxation with family and friends. Their modern, rectangular design ensures they seamlessly complement any environment, promising enduring enjoyment of these year-round garden pools.

BAHAMA

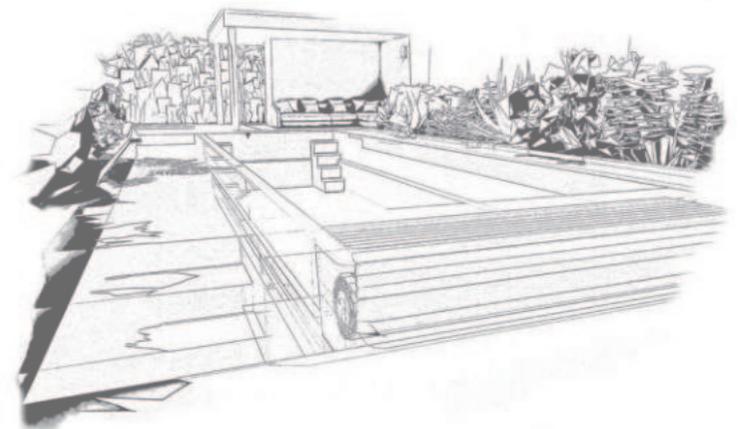

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
6,10 M X 3,75 M X 1,50 M	23 M2	650 KG (1040 KG)	25,5 M3
11,10 M X 3,75 M X 1,50 M	41,5 M2	1380 KG (2325 KG)	51,5 M3

The Bahama 11 and Bahama 600 are popular vinyl ester pool models known for their straightforward, comfortable steps and integrated compartment for the underwater roller blind.

The Bahama model stands out with stairs located on both sides of the shorter wall, ensuring easy access to the water without encroaching on swimming space. It features a built-in chamber for an underwater roller blind, making it an excellent choice for a year-round garden swimming pool. This roller blind serves as a safety barrier for children and pets while keeping the pool clean and protected.

TROPEA

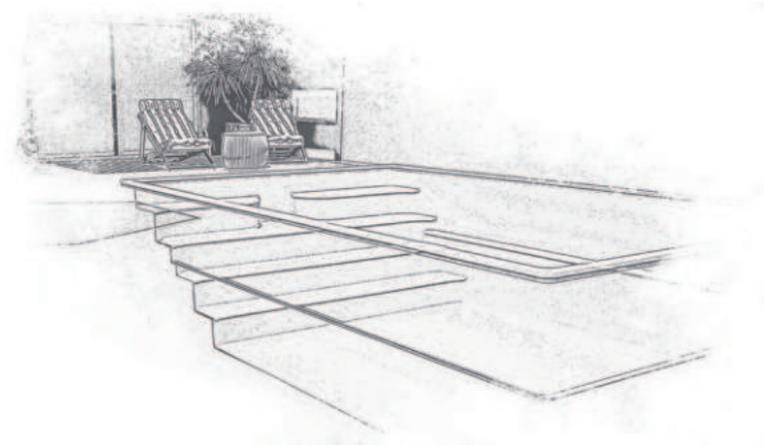

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
6,20 M X 3,70 M X 1,50 M	23,00 M2	680 KG (1080 KG)	29,50 M3

Tropea stands out as a unique garden pool model that combines relaxation with excellent opportunities for sports activities.

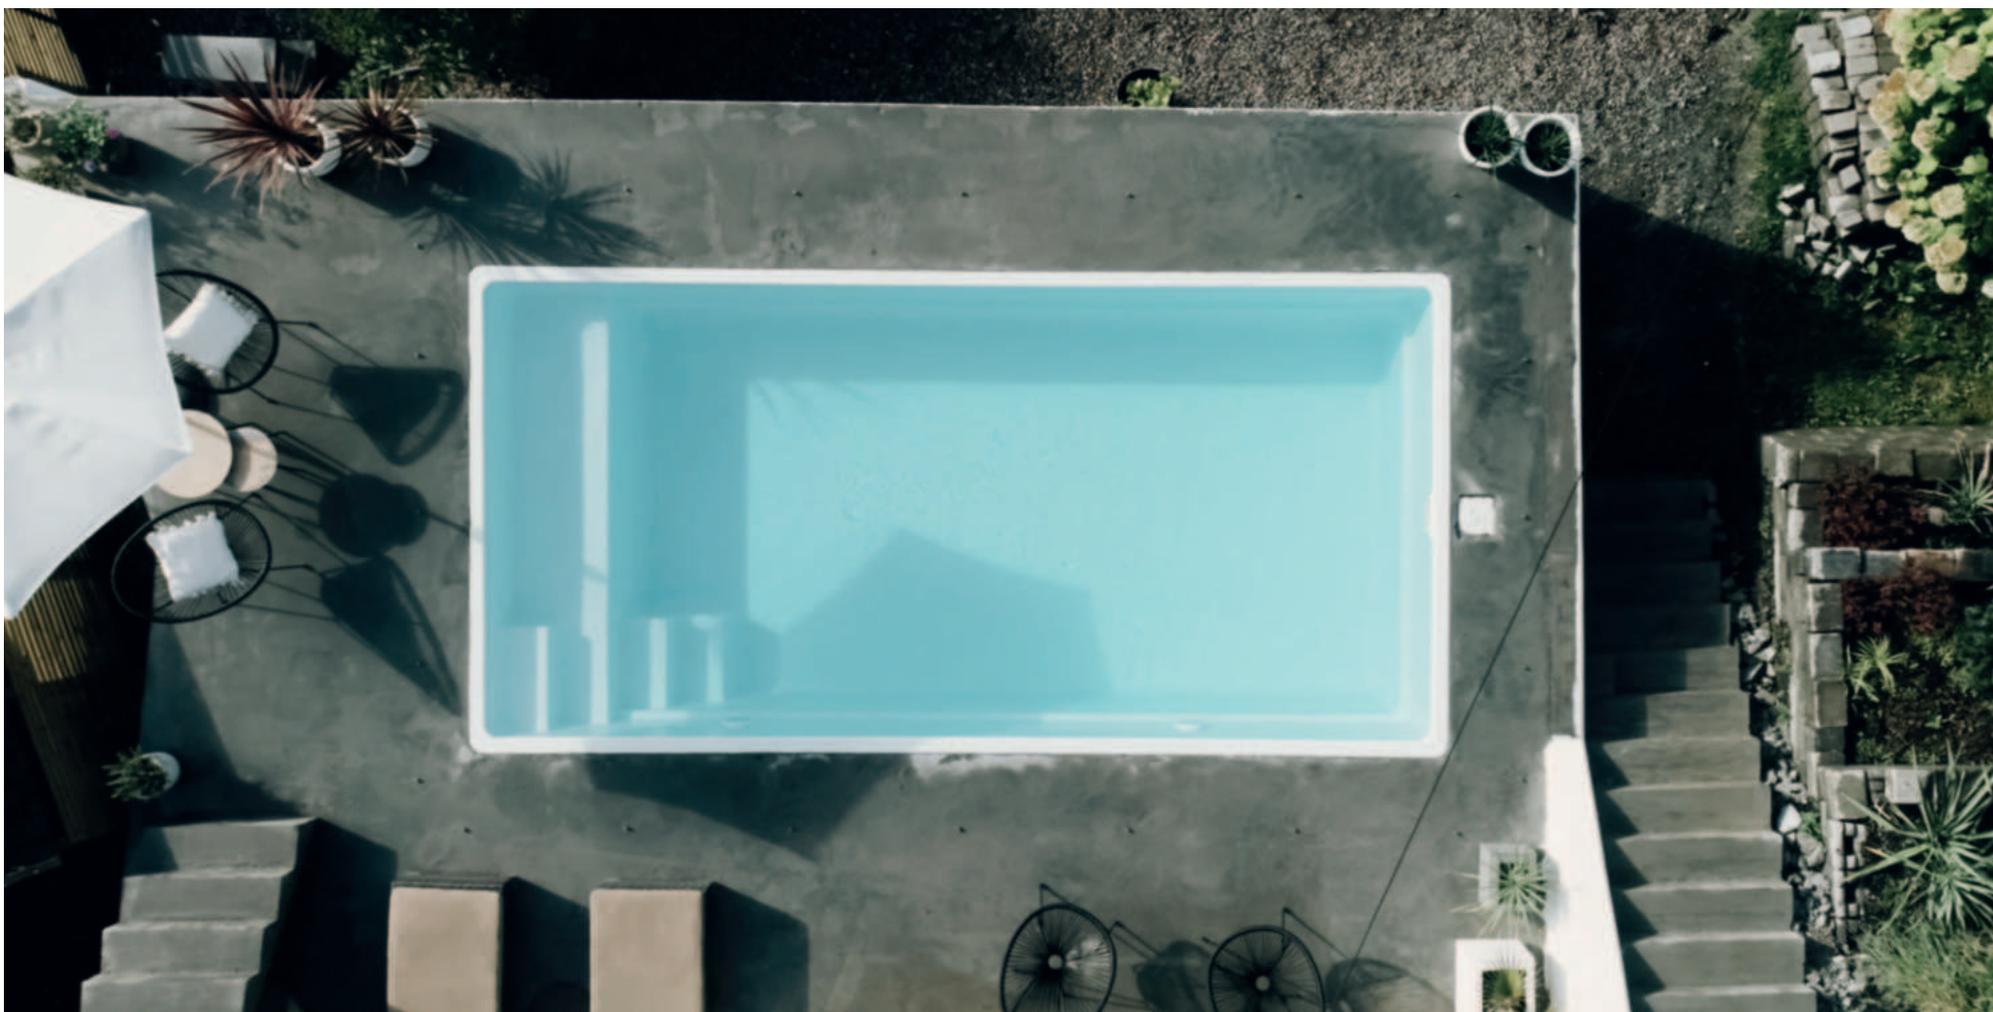

The Tropea model garden pool offers exceptionally comfortable steps, designed not only for relaxation but also for enjoying quality time with loved ones. Its generous width makes it perfect for swimming practice, and it can be easily customized with a counter-current system for enhanced relaxation.

FARRIS

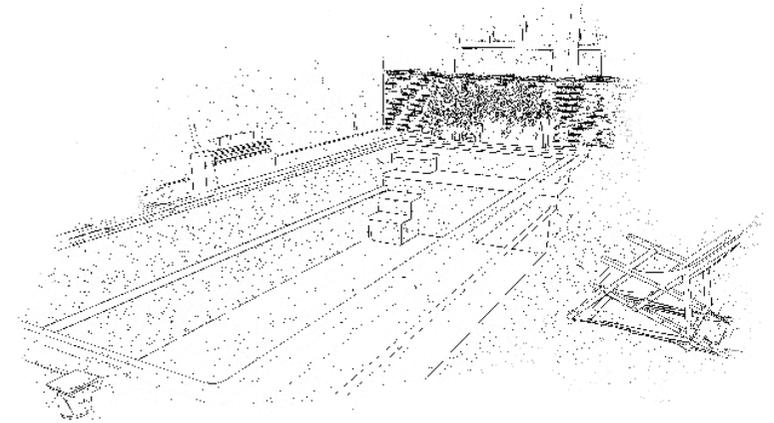

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
6,50 M X 3,20 M X 1,50 M	20 M ²	650 KG (960 KG)	31 M ³
8,00 M X 3,20 M X 1,50 M	25,60 M ²	850 KG (1250 KG)	38,40 M ³

Our best-selling Farris 650 and Farris 800 models are celebrated for their functionality and aesthetic appeal, offering versatility in garden pool options.

The Farris 650 and Farris 800 these models are widely desired for their straightforward design, practical corner steps, and cozy bench. These additional seating areas provide perfect opportunities for relaxing moments with loved ones. Available in two sizes, customers can choose the ideal fit for their garden space and personal needs.

AVES

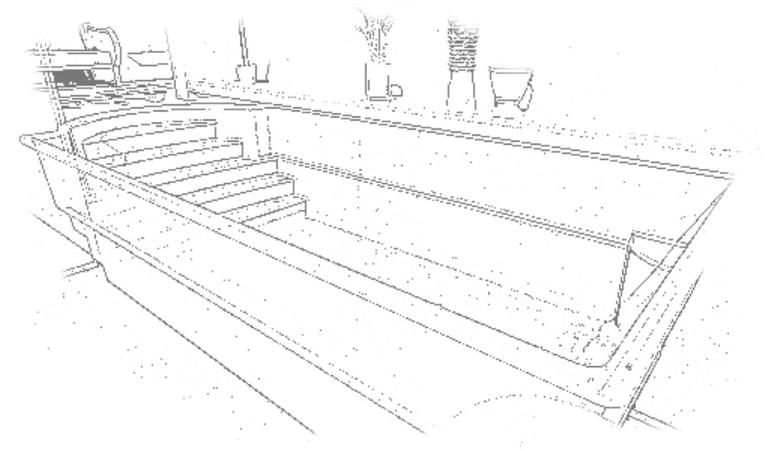

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
7,05 M X 3,20 M X 1,55 M	22,50 M2	710 KG (1140 KG)	26,50 M3
8,00 M X 3,20 M X 1,55 M	25,50 M2	850 KG (1250 KG)	31 M3

The Aves 800 and Aves 700 are models with the iconic Roman-style steps, which have enjoyed a long-standing reputation and are bestsellers in our range.

The iconic steps extending beyond the outline of this garden pool will make full use of it as a place to meet your loved ones. In addition, the two comfortable seats that this model is equipped with will enhance your moments in the pool, providing even more comfort. The Aves 700 and Aves 800 models offer both relaxation and physical activity for the whole family, thanks to the preservation of the swimming space.

BELIZE

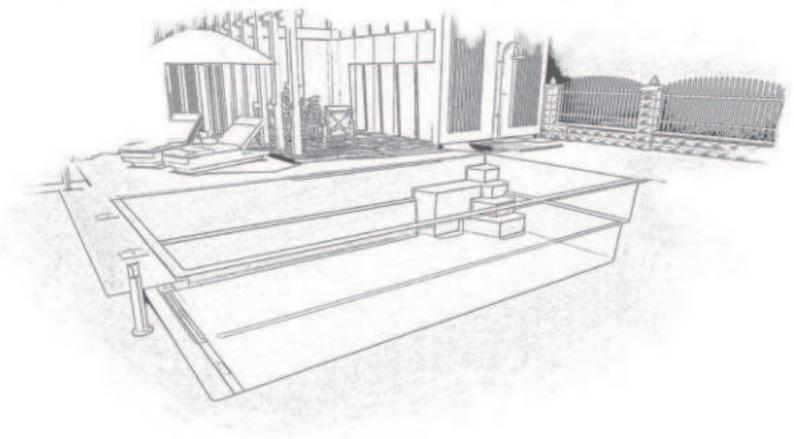

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
7,70 M X 3,70 M X 1,50 M	28,49 M2	930 KG (1210 KG)	36,5 M3

Introducing our latest addition, the Belize model showcases functionality, modern design, and a unique size that sets it apart from other garden pool options in our lineup.

Drawing on years of customer feedback, we've developed the Belize model—a pool that exceeds even the highest expectations. Its standout features include corner steps and a spacious bench running alongside the pool's long wall. These elements distinguish our model by offering a comfortable area for relaxation without compromising on swimming space.

HAITI

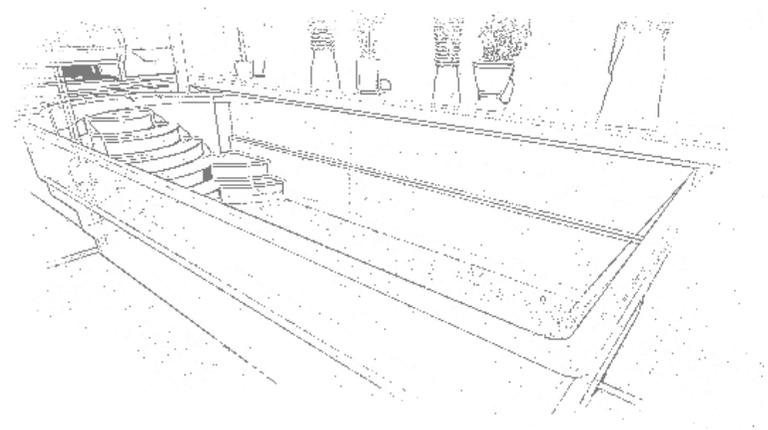

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
8,00 M X 3,20 M X 1,52 M	25,5 M2	840 KG (1250 KG)	31 M3

The Haiti model is a garden swimming pool characterized by rounded Roman stairs extending beyond the shape of the pool. Thanks to them, we provide comfortable entry into the water and additional space for relaxation, ideal for families.

The Haiti buried swimming pool model is designed for those seeking a spacious swimming area without compromising on comfort and functionality. Its distinctive rounded Roman steps extend beyond the pool's shape, offering both ease of entry and an additional relaxation space, perfect for family enjoyment. Enhance your pool experience by adding a fountain spout, which creates a soothing atmosphere for relaxation.

TORTOLA

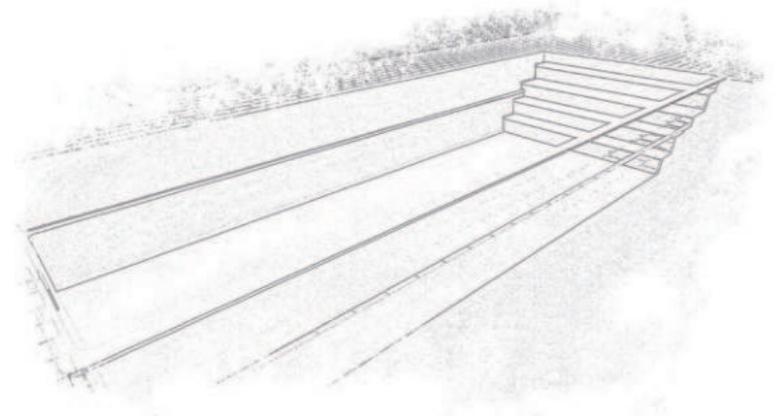

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
8,00 M X 3,70 M X 1,50 M	27,30 M2	900 KG (1350 KG)	38,2 M3
10,00 M X 3,70 M X 1,50 M	34,30 M2	1300 KG (1950 KG)	48 M3

The perfect swimming pool does not exist? We present the Tortola model in two dimensions. With wide, straight steps and an elegant design, this pool offers simplicity and functionality. Availability in two sizes allows customers to tailor the pool to their own needs.

Our bestselling swimming pool model, the Tortola, embodies minimalist elegance that aligns perfectly with contemporary trends. Its rectangular shape is meticulously designed to provide maximum comfort, catering to both active swimmers and those seeking leisurely moments on its spacious steps. For effortless pool maintenance, we recommend the swimm-e automatic cordless pool Hoover, ensuring your pool remains pristine with minimal effort.

PANAMA

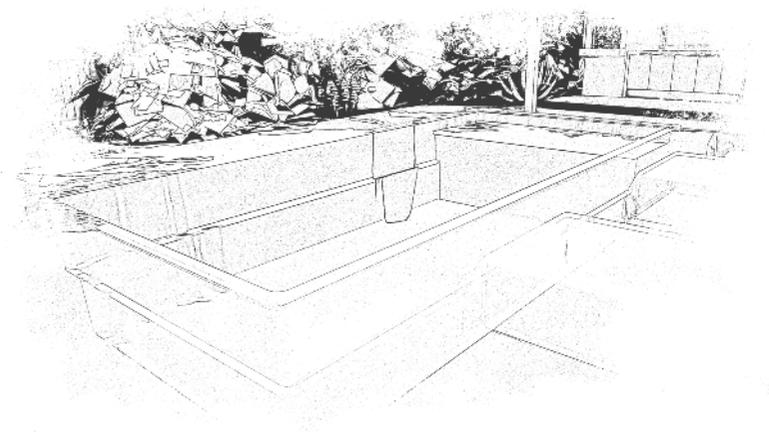

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
8,00 M X 3,70 M X 1,50 M	29,60 M2	900 KG (1350 KG)	36 M3

Panama is our unique model, designed with children in mind, making it an ideal garden pool for families and those seeking relaxation.

The Panama model offers both fun for children and relaxation for adults with its shallow design. The wide and shallow lounge is specifically crafted for leisure and recreation. To enhance usability, we recommend adding a staircase or ladder for easier access to the water. The ample space also makes it suitable for swimming practice. Consider adding a massage jet system, easily mountable on the pool wall, to further enhance relaxation.

ARUBA PLUS

DIMENSIONS:

8,00 M X 3,70 M X 1,50 M

WATER SURFACE:

29,50 M²

POOL WEIGHT (CVC):

950 KG (1350 KG)

VOLUME:

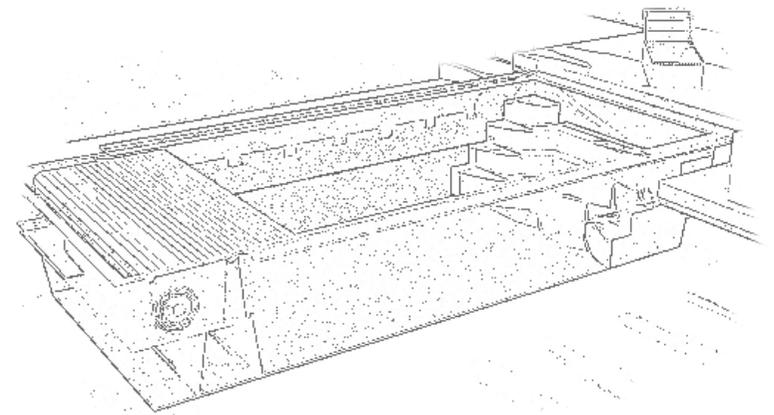

37 M³

The Aruba Plus pool is the perfect solution for those seeking a pool with exceptional features. One of its advantages is the specially designed space for concealing an underwater cover.

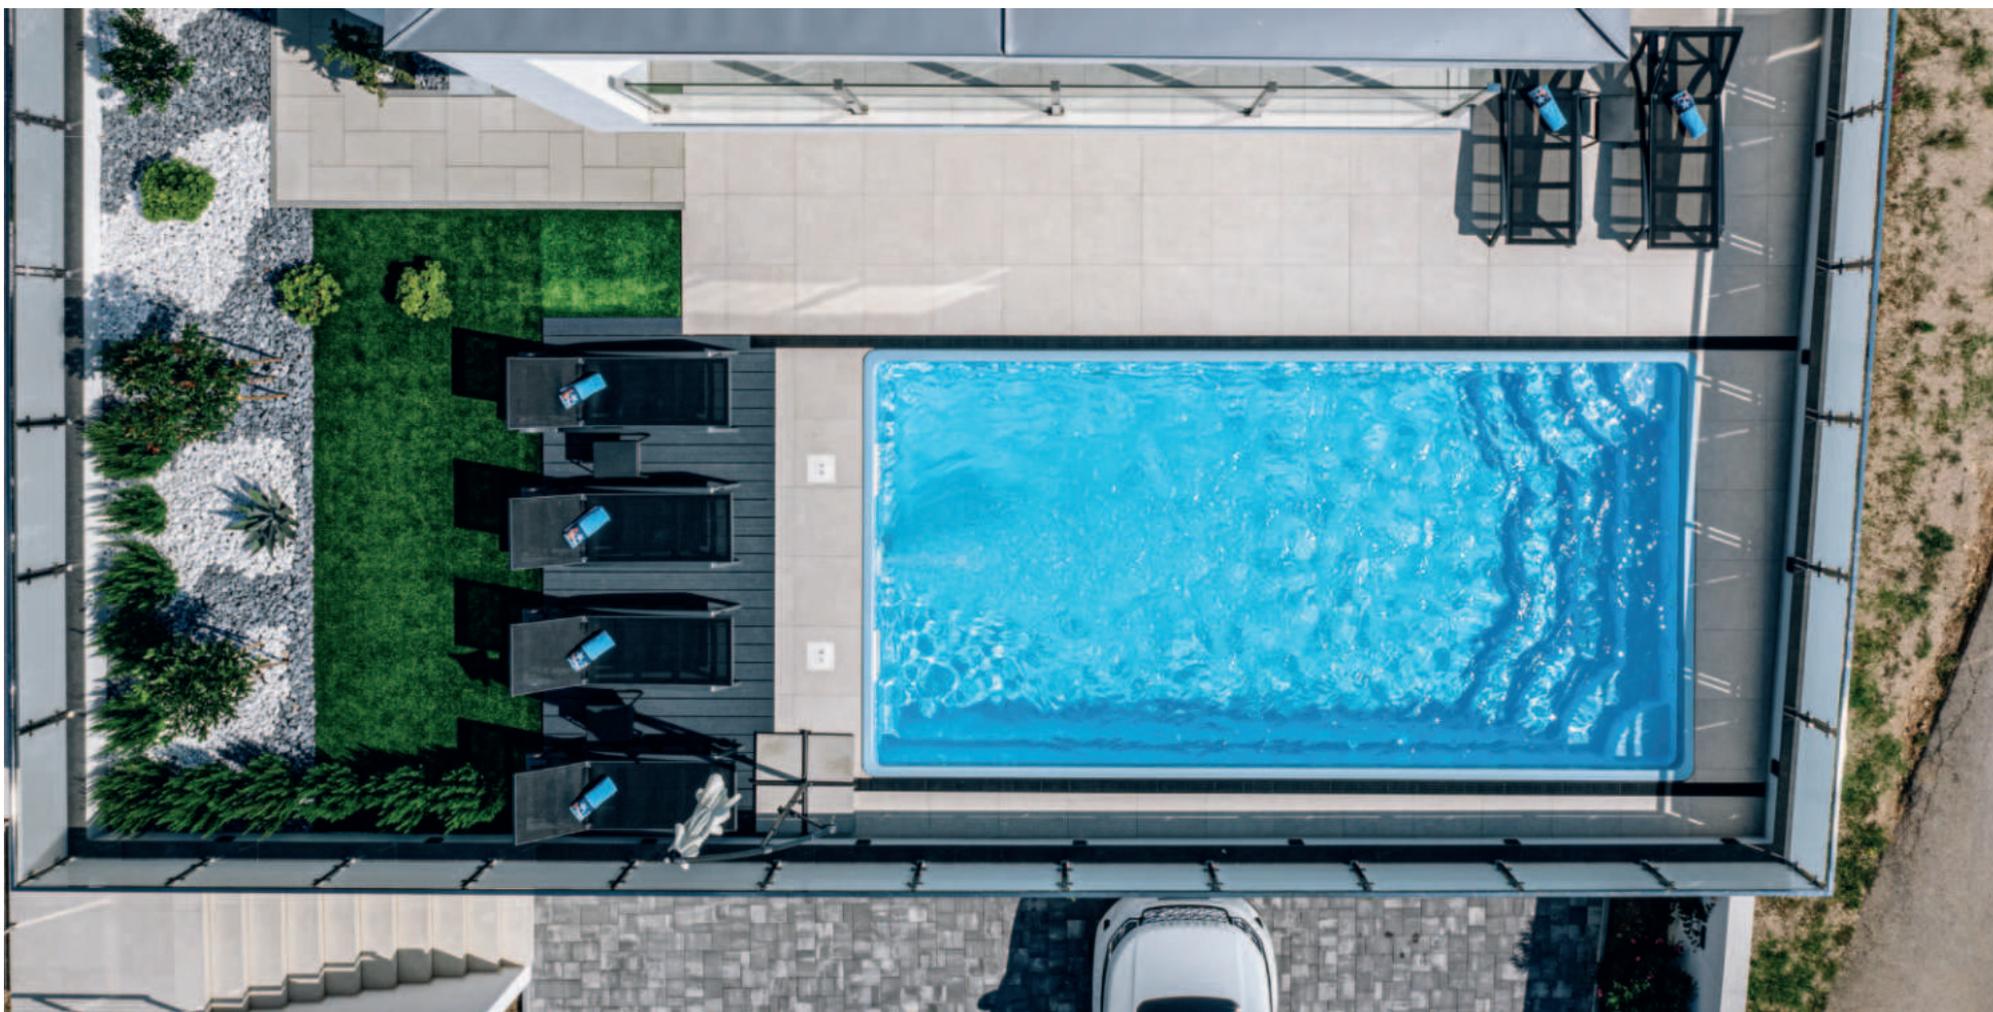

The Aruba Plus pool offers unique features and capabilities, making it an ideal choice for those seeking a versatile swimming pool solution. One standout feature is its specially designed compartment for concealing an underwater roller blind. This innovative addition enhances safety by securely covering the pool, preventing accidental access by children and pets.

ARUBA

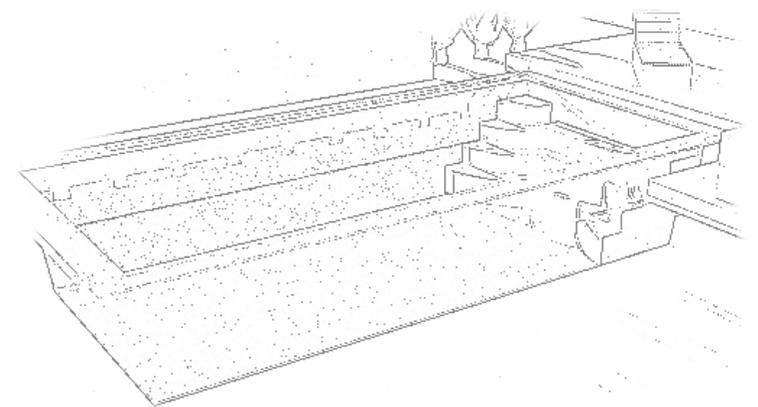

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
7,20 M X 3,70 M X 1,50 M	26,50 M2	860 KG (1420 KG)	34 M3
8,20 M X 3,70 M X 1,50 M	30,00 M2	945 KG (1350 KG)	39 M3

Introducing our bestseller, the Aruba pool! This fiberglass garden swimming pool is an ideal choice for families seeking comfort and leisure. Crafted for durability, it not only enhances the aesthetic of any space but also provides an excellent environment for both swimming and relaxation.

The Aruba model is celebrated for its spacious width, perfect for unrestricted swimming with a built-in counter-current system. This feature caters to active individuals seeking both relaxation and the ability to train conveniently in their garden swimming pool. The uniquely designed staircase promotes leisurely moments with loved ones, enhancing the pool's ambiance for relaxation and enjoyment.

BARBADOS

DIMENSION:
9,40 X 3,70 X 1,50 M

WATER SURFACE:
35 M2

POOL WEIGHT (CVC):
1180 KG (1770 KG)

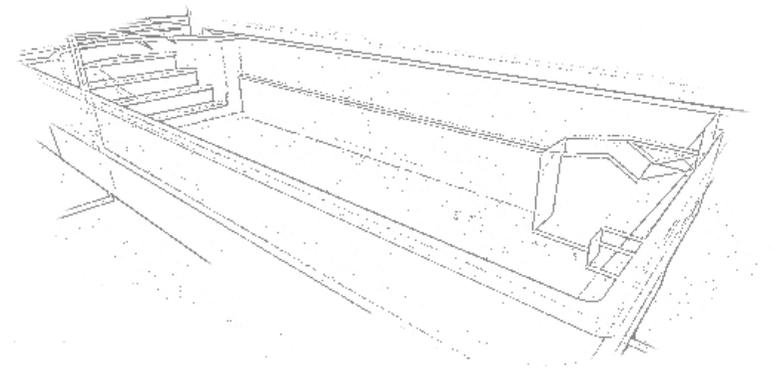

VOLUME:
41 M3

Discover the Barbados garden pool – our unique offering that stands out thanks to its specially designed lounge and elegant Roman steps, which subtly extend beyond the pool's outline.

Introducing the Barbados swimming pool, a distinctive choice featuring a specially designed lounge and elegant Roman steps that extend gracefully beyond the pool's edge. The lounge, situated in the corner, offers an ideal spot for relaxation enhanced by a massage jet system, ensuring both comfort and tranquility during baths. This pool is also perfect for active individuals, featuring a counter-current function that supports effective swimming training right in your own garden.

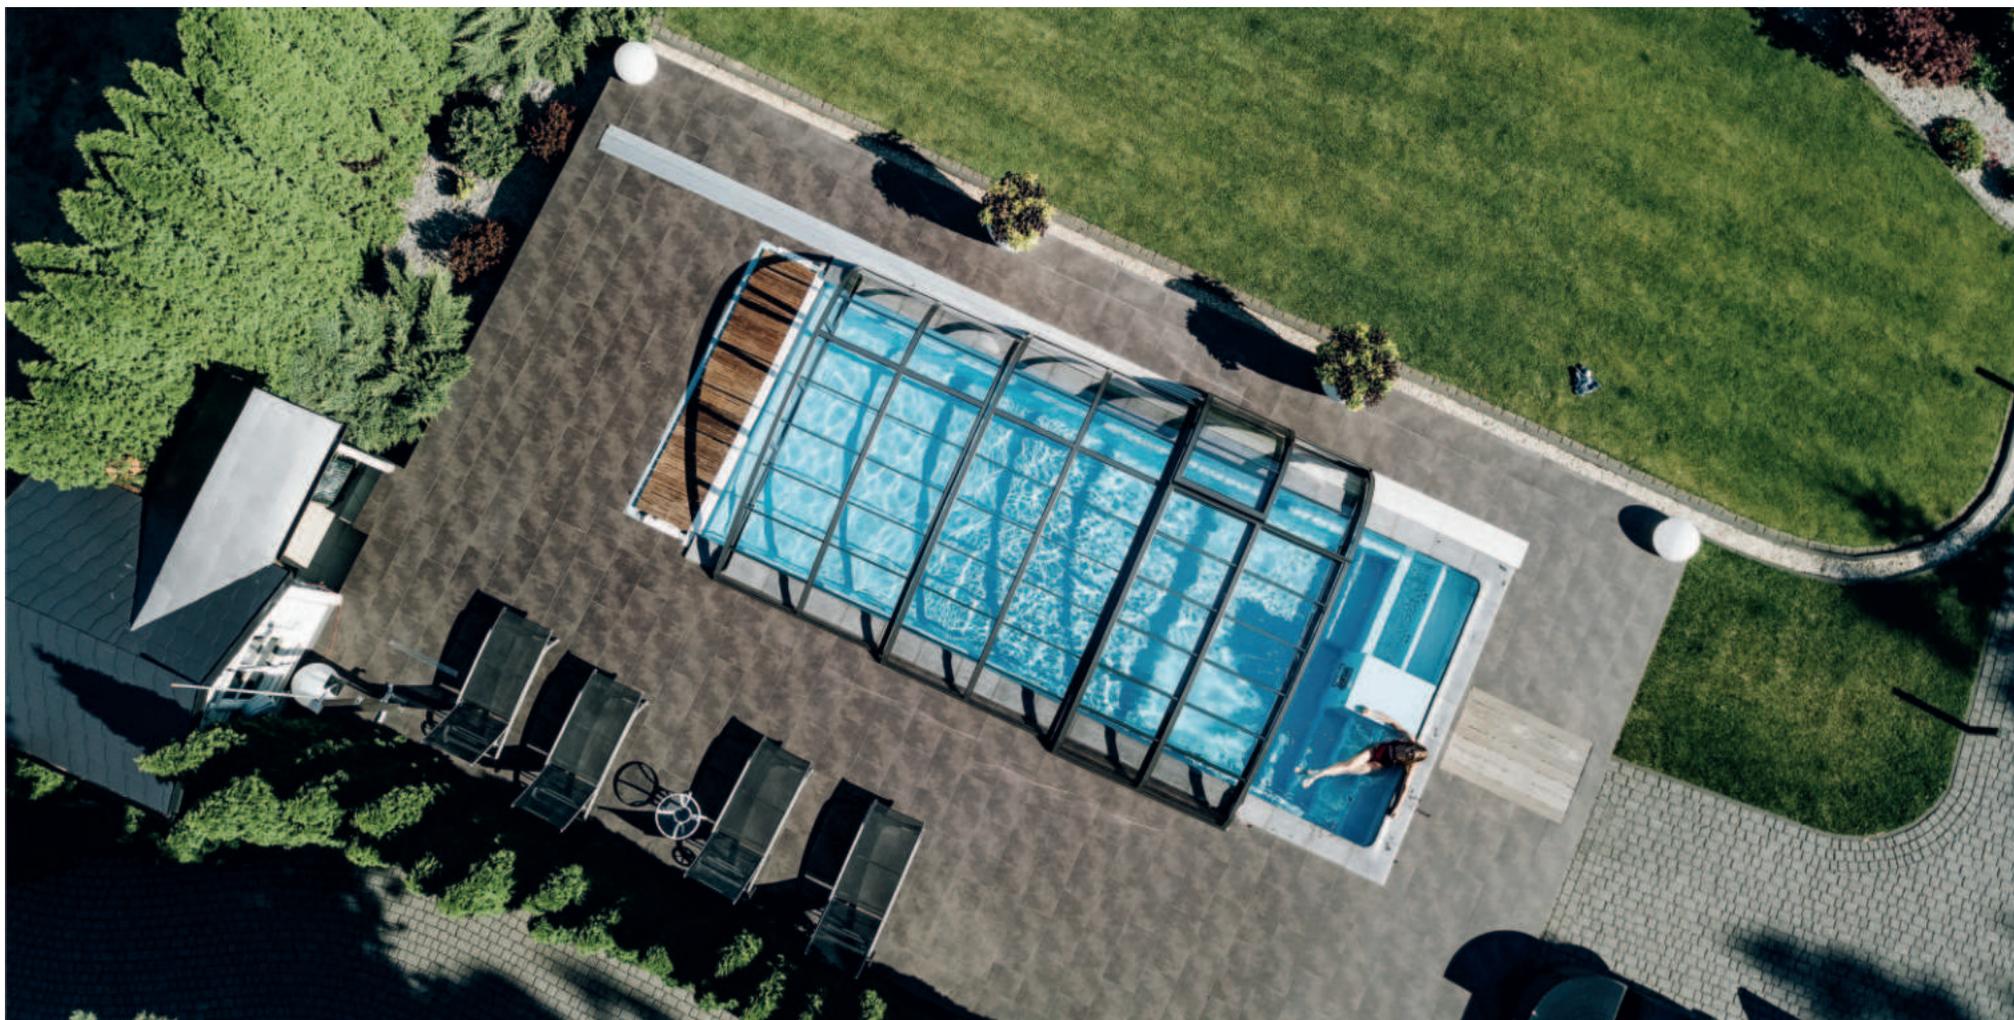

TRINIDAD

DIMENSION:
9,70 X 3,70 X 1,60 M

WATER SURFACE:
36 M2

POOL WEIGHT (CVC):
1250 KG (1850 KG)

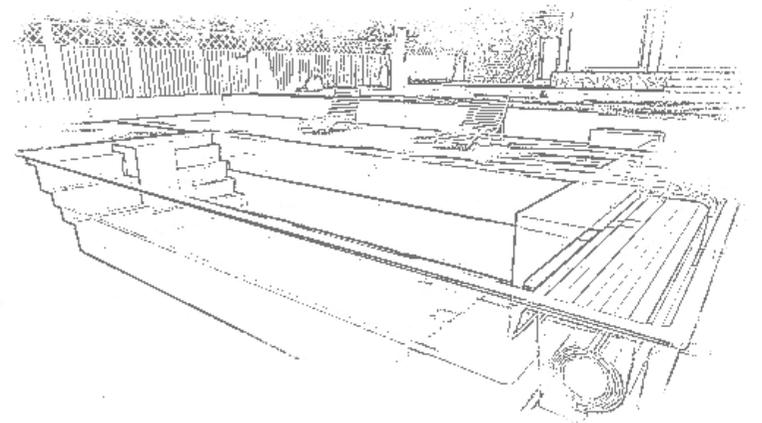

VOLUME:
46 M3

Introducing the Trinidad vinyl ester pool model, renowned for its practicality and user-friendly features. This popular pool includes straightforward steps and a built-in compartment designed for an underwater roller blind.

The Trinidad model stands out with stairs positioned on both sides of its shorter wall, separated by a seat in the middle. This configuration not only facilitates easy entry and exit from the water but also ensures the swimming area remains unobstructed. Additionally, the model includes a chamber for installing an underwater roller blind, serving to safeguard the pool against children and pets while maintaining cleanliness.

HAWANA

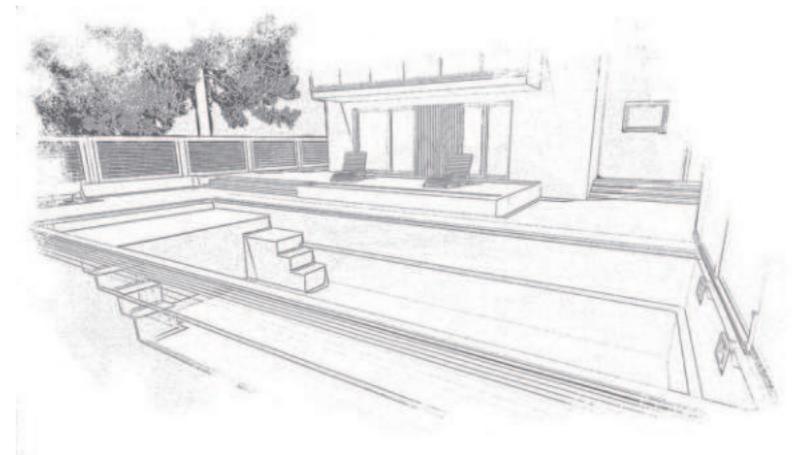

DIMENSION:	WATER SURFACE:	POOL WEIGHT (CVC):	VOLUME:
10,00 M X 3,70 M X 1,50 M	37 M2	1150 KG (2250 KG)	46 M3

Hawana is one of the latest forms among our vinyl ester pools. With a spacious shallow end and simple stairs located on both sides of the basin, it is a solution that will satisfy the most demanding. An extremely functional model.

The Hawana offers a spacious shallow end, making it an ideal choice for families with children and for those who appreciate relaxing on a sun lounger or water mattress. Thanks to the corner steps, the swimming space remains maximised and access to the water is easy and safe. The dimensions of this garden pool have been carefully thought out to satisfy both lovers of quiet relaxation and those who prefer active forms of recreation.

JAMAIKA

DIMENSION:
11,25 X 3,75 X 1,50 M

WATER SURFACE:
42 M²

POOL WEIGHT (CVC):
1420 KG (2250 KG)

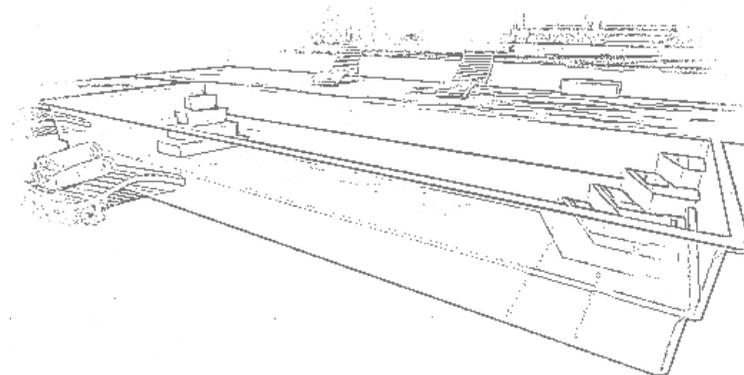

VOLUME:
53 M³

Introducing the Jamaica model, our largest garden swimming pool offering. This impressive 11-meter-long pool is perfect for those with ample outdoor space who seek comfortable swimming and quality time with loved ones.

The Jamaica pool is a vinylester pool model distinguished by its corner staircase positioned along the long side, offering easy and comfortable access to the water. The beveled staircase not only enhances functionality but also adds a unique style to the pool's overall construction. With its expansive size, the pool provides ample space for swimming freely and enjoying water activities with the entire family.

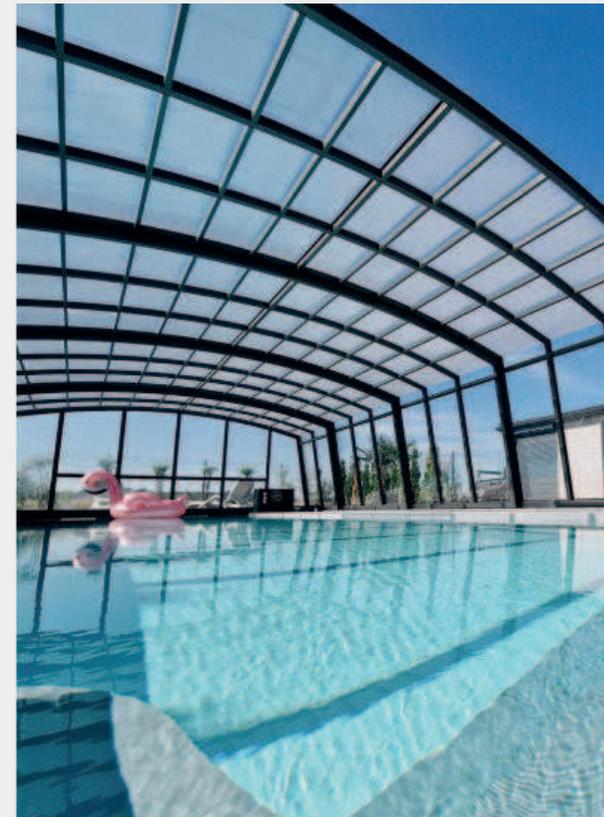

POLYPROPYLENE POOLS

As manufacturers of polypropylene pools, we offer you the opportunity for personalized design. Using diffusion welding to join plates, we can create pools of any size and shape to suit your preferences.

Luxury tailored to your vision.
What's your dream?

Polypropylene pools

For whom is a polypropylene pool suitable

01	Choose Any Dimensions	As manufacturers of polypropylene pools, we can provide you with a pool basin of any size and shape. If the selection of vinylester pools doesn't meet your needs, a polypropylene pool is the ideal choice!
02	Shape Customization	Polypropylene pools are crafted by joining plates through diffusion welding, allowing for limitless design possibilities. The aesthetics of your pool are entirely up to you. Whether you prefer a pool with steps or a sprawling swimming basin, the choice is yours to make!
03	Color Combination	The design of a polypropylene pool enables you to mix and match pool colors according to your preference. Explore examples of polypropylene pools to determine which color combinations best complement your garden.
04	Experience High Quality	Polypropylene pools boast exceptional durability thanks to certified materials. Their smooth walls ensure easy maintenance, resistance to damage, and UV radiation. Additionally, polypropylene pools exhibit superior resistance to algae growth.

[WATER ALWAYS CLEAR AND WARM?]

Pool Enclosures

An enclosure is the best way to protect a pool. It prevents water from cooling, evaporating, getting contaminated, and being exposed to UV radiation. Enclosures are made from aluminum profiles and polycarbonate sheets—materials that are durable and long-lasting.

What type of pool cover?

- 01 Solar pool cover – above water, insulates the pool from heat loss, protects against debris and evaporation, but does not provide safety for children or pets.
-
- 02 Roller cover – above water or under water, insulates the pool from heat loss, protects against debris and evaporation, is capable of supporting a child or even an adult on the surface.
-
- 03 Reinforced cover (year-round) – ensures maximum safety for children and pets, securely covers the pool throughout the entire year.

SAND FILTER

A device containing sand or glass used to "trap" impurities from the water. It is part of the basic pool technology.

FILTRATION PUMP

The filtration pump is responsible for drawing water into the filtration system and returning it back to the pool through the nozzles.

NOZZLES

Responsible for returning cleaned water back to the pool. They can be made of white ABS or stainless steel.

LAMPS

The amount of underwater lighting is chosen according to the client's preferences. The lamp housing can be made of white ABS or stainless steel.

SKIMMER

Draws water into the filtration system while collecting small impurities into a basket. Available in white ABS or stainless steel.

Pool accessories

Used for easier drainage of water from the pool cover chamber.
It can be made of white ABS or stainless steel.

MAIN DRAIN

Automatically doses chemicals into the pool in the ideal amount, thus saving on chlorine and pH usage.

AUTOMATIC
CHEMICAL DOSING
STATION

The salt electrolyzer is an alternative to traditional purification methods, protecting against bacteria by ionizing salt and converting it into chlorine.

SALT
ELECTROLYZER

The UV lamp purifies water using UV radiation, without changing its smell or taste, and also reduces the use of pool chemicals.

UV LAMP

Heat pumps warm the water using ambient temperature; they are eco-friendly, easy to install and operate, and cost-effective.

HEAT PUMP

HEAT EXCHANGER

Heat exchangers warm the water using energy from a boiler, solar collector, or another power source. They are durable, virtually maintenance-free, and easy to install and operate.

DOLPHIN S100

The Dolphin S100 automatic vacuum cleans the walls and floor of the pool. It operates with a 15-meter cable. The cleaning cycle lasts 2 hours.

SWIM-E

The Swim-E pool cleaning robot is a fully wireless vacuum that can operate for up to 6 hours without recharging. It cleans the floor, walls, and waterline.

BLUE CONNECT

Blue Connect is an intelligent water analyzer. It measures temperature, pH, and salt levels in the water, among other things. It connects to a mobile app that notifies you when pool chemicals need to be added.

Pool accessories

The counter-current system is used in pools to allow swimmers to train while staying in one place. By using the force of water, the counter-current creates resistance for the swimmer, enabling intensive training simulation without moving across the pool.

COUNTER-CURRENT

Stainless steel waterfalls create a water curtain that can be used for massage and serve as a unique pool feature.

WATER CURTAIN

For those who don't have a ready space for filtration equipment, we install it in plastic "boxes" placed in the ground near the pool, with only the lid visible. Available in 4 sizes.

TECHNICAL ROOM

Filtration equipment can be housed in an aluminum box measuring 1850 x 1050 x 950 mm. This solution provides convenient access to pool technology with top and front doors that lock with a key. The box is available in two colors.
